To: "sscantlebury@azwater.gov" &lt;sscantlebury@azwater.gov&gt;

To Whom It May Concern,

I wanted to voice my support for the drafting of legislation that would allow the Colorado River Tribes to lease water back to various governmental entities, including cities and counties in Arizona. It is a good use of water and I would rather see money go to the CRIT tribes rather than another wasteful project. It also compensates and discourages agricultural farming that is not energy efficient. I strongly urge the Arizona Department of Water Resources to support this plan and to help support congressional legislation.

Thank You,
