(c) The agency inspector or regulator must disclose any applicable inspection fees.

(d) The agency inspector or regulator must afford an opportunity to have an authorized on-site representative of the regulated person accompany the agency inspector or regulator on the premises, except during confidential interviews.

(e) The agency inspector or regulator must provide notice of the right to have on request: (1) copies of any original documents taken by the agency during the inspection if the agency is permitted by law to take original documents; (2) a split of any samples taken during the inspection if the split of any samples would not prohibit an analysis from being conducted or render an analysis inconclusive; (3) copies of any analysis performed on samples taken during the inspection; and (4) copies of any documents to be relied on to determine compliance with licensure or regulatory requirements if the agency is otherwise permitted by law to do so.

(f) The agency inspector or regulator must inform each person whose conversation with the agency inspector or regulator during the inspection is tape recorded that the conversation is being tape recorded.

Within thirty days of receipt of notification from the regulated person that the deficiencies have been corrected, the agency must determine if the regulated person is in substantial compliance and notify the regulated person whether or not the regulated person is in substantial compliance. If the regulated person fails to correct the deficiencies or the agency determines the deficiencies have not been corrected within a reasonable period of time, the agency may take any enforcement action authorized by law for the deficiencies.

(j) At least once every month after the commencement of the inspection, the agency must provide the regulated person with an update on the status of any agency action resulting from an inspection of the regulated person. The agency is not required to provide an update after the regulated person is notified that no agency action will result from the inspection or after the completion of agency action resulting from the inspection.

20. Is entitled to have the Department mail written notice of an inspection by first class mail to the owner, manager, or occupant of the property at least seven days prior to the inspection as provided in A.A.C. R12-15-1101, unless the Director reasonably believes that notice would frustrate the enforcement of Title 45, Arizona Revised Statutes, or where entry is sought for the sole purpose of inspecting water measuring devices required pursuant to A.R.S. § 45-604.
