Groundwater Management Act (1980)

Created Arizona Department of Water Resources

**Goals of the Act**

- Control severe groundwater depletion
- Provide the means for allocating Arizona's limited groundwater resources
- Improve Arizona’s groundwater supplies through conservation and development of additional water supplies

Former Arizona Governor and Interior Secretary Bruce Babbitt signing the GMA
A.R.S. § 45-563 (A)

“The director shall develop a management plan for each initial active management area for each of five management periods... and shall adopt the plans only after public hearings... The plans shall include a continuing mandatory conservation program... designed to achieve reductions in withdrawals of groundwater.”

* Agricultural Supplement I
Contents:

* 5MP proposals
* 5MP Work Group meeting summaries and links
* Stakeholder comments
Major Changes - Programs

Recharge (Chapter 3)

* Added language to allow clarification of definition of “shallow depth to water conditions”

Agricultural (Chapter 4)

* Base Program: 5% reduction of top 25% of water duties pursuant to A.R.S. § 45-568(A)(2)
* BMP Program: Updated BMP list and minimum points requirements with recommendations from the BMP Advisory Committee
* Integrated Farm Program: New alternative option allowing an owner/operator to combine the allotments of multiple IGFRs, with a 5% “cut to the aquifer”
Municipal (Chapter 5)

- GPCD Program: Updated requirement calculation method and flex range
- NPCC Program: Made significant updates to BMP list in collaboration with 5MP Municipal Subgroup; added an additional tier; added minimum number of categories for each tier; updated points requirements

Industrial (Chapter 6)

- Power Plants: Added language allowing a modification to cycles of concentration requirements if blowdown water will be put to a beneficial reuse
- Golf Courses: Overhauled allotment calculation method to better reflect actual practices and recent consumptive use analyses
- Non-Golf Turf Facilities: Split into two categories: High and Low water use landscapes, where landscapes with ≤30% water intensive landscape use a more generous allotment calculation
- Mining: Proposal will be discussed today – not currently included in the draft
Major Changes – Structure & Content

* Shifted data online
  * Transparency
  * Ongoing updates
* Added Executive Summary
  * Assists with quick reference to information throughout the 5MP
* Streamlined
  * Uses references for more detailed information
* Added Engagement Information
  * Increased emphasis on opportunities for contact and engagement

Next Steps

Natalie Mast
“The groundwater users advisory council shall:

1. Advise the area director for the active management area, make recommendations on groundwater management programs and policies for the active management area and comment to the area director and to the director on draft management plans for the active management area before they are promulgated by the director.

2. Keep the minutes of its meetings and all records, reports and other information relative to its work and programs in permanent form indexed and systematically filed.

3. Elect from its members a chairman and vice-chairman for terms of two years expiring on the third Monday of January of each even numbered year.

4. Designate the person or persons who shall execute all documents and instruments on behalf of the council.

5. Manifest and record its actions by motion, resolution or other appropriate means.

6. Make a complete record of its proceedings which shall be open to public inspection during regular business hours in the branch office of the department in the active management area.

7. Provide comment to the Arizona water banking authority with regard to draft plans for additional storage facilities and draft plans of operation in accordance with sections 45-2453 and 45-2456.”
