Hello, my name is Greg Kelly and I am a local resident. I agree there needs to be more oversight on water usage in the area. Simply put, growing crops in this region seems ridiculous. There is an orchard off Shinarump road that I don't really understand. And whoever had the alfalfa fields off SHR was dumb too. The Colorado River is already strained, let's not add our aquifers to it too. Private gardens are fine. Oh, and if the Kingman golf course dried up and was leveled off, it wouldn't hurt my feelings either.

Greg Kelly
