The time has passed since Jim Rhodes and the water thieves came to Mohave with the pretense of developing homes , to just steal our water. They secured all the water rights, drilled up to 3000 gal a minute wells all over Mohave county. They caused gold rush sky high phony property prices , ruined our econy and flood Mohave county with tree farms in the desert sucking up our water. We got workers on welfare, ag status property with no taxes, and crops they sent to other countries, They flat stole our water, we got nothing. Our Represenatives were donated to , bought off , flown around in helicopters, and wined and dined in Vegas and all our citizens got screwed. Now the solution is to come in after the screwing and let bureaucrats and fools set up boards and regulations to screw the little landowners ranchers and farmers out of their right to use water. NO THANK YOU, no more bullshit rules and regulations to put the final nails in the coffin for the small landowners. Leave us alone, NO INF PLEASE !!!
