Dear Ms. Scantlebury,

I am unable to attend the Public Hearing concerning the Proposed INA for the Hualapai Valley Groundwater Basin on November 12. Thank you for accepting emails in regard to this matter.

My husband, Steve, and I are in support of restrictions on any agricultural water usage. The amount of water used is impacting the residential water resources. In fact, I support regulating the amount of current water usage by the agricultural industry by promoting water saving irrigation systems. Please help save our residential water.

Thank you,
Sharon Rhizor
