Good morning Sharon,

I recently received the letter from the Az Department of Water Resources regarding the the public hearing for the new water resources proposed plan. I would like to attend and would also like to receive a copy of the Plan if I may.

I believe that you at the Department of Water Resources have done an amazing job managing our water resources, insuring that we here in the desert have the water needed to sustain our day to day needs. Needs are definitely the real concern, but somehow you have also provided us with water for vegetation which has made Phoenix an oasis in the desert. That cannot be an easy task with the population of this valley.

I look forward to attending the Hearing and discovering the ideas for the future management of one of our most valuable resources. Have a blessed day.
