### Application for a Certificate of Assured Water Supply

#### **This application**

This application is to obtain a Certificate of Assured Water Supply (Certificate). A Certificate must be obtained when land is subdivided within an active management area and is not served by a designated water provider. A current list of [designated providers](#) is available on the Department's website or you may request a copy from the Office of Assured and Adequate Water Supply. If a designated water provider serves the area of the subdivision, and the developer has obtained a written commitment of service from that provider, the subdivision does not need a Certificate. Certificates are issued based on the subdivision's plat and in the names of the property owner(s). For more information, please see [A.A.C. R12-15-704](#). **NOTE: The issued Certificate is valid only for the specific property owner(s) listed on the certificate and the plat on which the application was based and is not automatically transferable. If the plat changes after the Certificate is issued, you may apply for a Material Plat Change Review under [A.A.C. R12-15-708](#) to determine if changes to the plat are material. If there is a new property owner, you may qualify to assign the current Certificate to a new owner. If you do not qualify for an Assignment of a Type A or Assignment of a Type B Certificate, and there have not been material changes to the subdivision's plat, you may apply for a Re-Issuance of a Certificate if the ownership has changed. Contact the Office of Assured and Adequate Water Supply for assistance.**

The Department strongly encourages a pre-application meeting if you have not previously been through the application process. Please contact the Office of Assured and Adequate Water Supply to schedule a pre-application meeting.

Please submit one copy of all application materials. If there is not enough room provided on this form for answers to any questions, please attach separate sheets as necessary.

#### **Technical Registration Requirements**

The Arizona Department of Water Resources requires hydrologic and engineering reports, studies, drawings and maps, specifications, analyses or related data submitted to support the evaluation of this application to be signed and sealed by a professional geologist or qualified professional engineer who is registered in the State of Arizona under the authority of A.R.S. Title 32, Chapter 1. For additional details regarding this requirement please refer to "Notification of Professional Registration Requirements for Persons Submitting Hydrologic Reports and Related Data to the Arizona Department of Water Resources to Support Applications for Permits or Approvals". This notice is on the Department's website in the category "Permits, Forms and Applications" and can be found under the heading "Professional registration requirements for persons filing hydrogeologic and engineering studies".

#### **What is a subdivision?**

All subdivisions within active management areas, including those for residential, commercial or industrial uses are subject to the assured water supply requirements. Please see the definition of a "subdivision" in [A.R.S. § 32-2101](#).

## **Exemptions**

Plats recorded prior to 1980, or for which a Certificate was issued, where water service is available to each lot may not be required to obtain a Certificate. Please see [A.A.C. R12-15-704.J or K](#) and contact the Office of Assured and Adequate Water Supply for assistance.

## **Time Frames for Review of Your Application**

Within two hundred and ten (210) days after receipt of your application, the Department will determine whether your application should be granted or denied, unless this time frame is extended as described below. In processing your application, the Department will first determine whether the application is administratively complete (administrative completeness review), and then whether the application meets the substantive criteria established by statute or rule (substantive review). Each of these reviews will be completed within the times stated below. The time for the administrative completeness review plus the time for the substantive review is referred to the overall time frame.

### **1) Administrative Completeness Review Time Frame**

Within one hundred and fifty (150) days after receipt of your application, the Department will determine whether your application is complete. After your application is complete, the Department will proceed with substantive review. If the Department determines that your application is incomplete, the Department will provide a written notice, including a comprehensive list of specific deficiencies. Until the missing information is received, both the administrative completeness review and the overall time frames will be suspended. When the Department receives the missing information, the administrative completeness review and overall time frames will resume. Your application will not be complete until all of the requested information is received. If you do not supply the missing information within sixty (60) days of receiving the written notice, your application may be denied.

### **2) Substantive Review Time Frame**

Within sixty (60) days after the Department determines that the application is complete, the Department will review your application to determine whether it meets the substantive criteria required by statute or rule. By mutual written agreement between you and the Department, the time for substantive review may be extended by up to 52 days, which is twenty five (25) percent of the overall time frame as provided in [A.R.S. § 41-1075 \(B\)](#). During the substantive review, the Department may make one written request for additional information. You may also agree in writing to allow the Department to submit supplemental requests for additional information. If additional information is requested by the Department, both the substantive review and overall time frames will be suspended. When the additional information is received, the substantive review and overall time frames will resume. At the end of the Department's substantive review, the Department will send you a written notice either granting or denying your application. If your application is denied, the notice will include the justification for the denial and an explanation of your right to appeal the denial.
