Mr. Chuck Podolak  
Natural Resources Policy Advisor  
Office of the Arizona Governor  
1700 West Washington Street, 8<sup>th</sup> Floor  
Phoenix, Arizona 85007

**Re: Recommendation to Maintain the Drought Emergency Declaration PCA99006 and Drought Declaration issued by Executive Order 2007-10**

Dear Mr. Podolak,

This letter provides the Spring 2021 update on Arizona drought conditions and the Drought Declaration Recommendation to the Governor from the Drought Interagency Coordinating Group (ICG). The ICG is an advisory body to the Governor, composed of state, federal, tribal, and non-governmental organizations. This group meets biannually in the spring and fall to evaluate drought conditions and provide recommendations to the Governor regarding emergency declarations due to drought.

The updates presented at the May 11, 2021, ICG Meeting confirmed that Arizona remains in short- and long-term drought with most of the state experiencing some level of drought condition from abnormally dry to exceptional drought. Based on the information presented at the meeting, the Governor's Drought ICG unanimously recommends that the State's Drought Emergency Declaration (PCA99006) and the Drought Declaration for the State of Arizona (Executive Order 2007-10) be continued. No further action is required to maintain both declarations already in place.

Sincerely,

A handwritten signature in black ink, appearing to read "Thomas Buschatzke", written in a cursive style.

Thomas Buschatzke, ICG Co-chair

cc: Allen Clark, ICG Co-chair
