Dear ADWR,

I would like to commend all the people that worked on this 5th Management Plan. It is good when groups of varying interests can come together and work towards the same goal of water conservation to help protect our future. We are honored to have represented large HOA Communities with efforts to reduce water usage for the 5th Management Plan.

With water being a limited resources, it's important for communities to invest it wisely as trees become more important with less year round turf feasibility. This plan reflects that intent. Thank you to ADWR staff for the community outreach that made this plan possible. We look forward to partnering with our communities to assist them with strategic water planning in preparation for this plan enactment.

Best Regards,

Janet Dempsey
